---

**1.2 Type(s) of work carried out by Company:**

Reoforce Steelfixing Contractors Pty Ltd has been involved in concrete reinforcement within the construction industry focusing on Commercial, Civil and Marine projects. Our projects have included bridges, roads, tunnels, marine structures and commercial buildings.

**1.3 Years Trading:**

Carlos and Leandro have been trading over twenty years in the Steel Fixing industry in Australia and have gained vast experience in all facets of the industry.

**1.4 Company Strengths:**

Reoforce Steelfixing Contractors Pty Ltd commenced trading in June 2008 and has secured contracts for large scale civil construction projects as listed in our Past and Current Projects. The Directors along with many staff members have extensive experience in the concrete reinforcement industry and have exemplary expertise in the implementation and construction of these civil works.

Our team can read and interpret complicated plans and draw from their vast experience to produce the most accurate and efficient methods to ensure structural integrity along with an extremely high level of health and safety management.

For many years, the company focused exclusively on roads and bridges, such as, Albury/Wondonga Bypass, Gateway Bridge Brisbane, Airport Link Brisbane, Banora Point Bypass and the Trackstar Alliance - Richlands to Springfield Rail Link.

In 2011 we commenced work in the mining sector at Gladstone and Dalby areas and have established an extensive register of experienced steel fixers throughout the eastern seaboard.

After completing the work in the mining industry Reoforce has turned to predominantly civil projects, working on three hospital projects; Lismore Base, Macksville and most recently Coffs Harbour. Some of the large scale civil projects include; The Gallery Apartments in Broadbeach, Waterpoint precinct building F Harbour Town, and Grant Ave Hope Island, where Reoforce has recently begun Stage 2 after competing the initial stage.

Our administrative staff have a combined 30 years experience in the industry and understand and implement a high level of compliance with both on site and off site compliance requirements and have undertaken and successfully completed a number of industry audits.

**1.5 Insurance Details:**

- a) We have Third Party Public Liability Insurance and can provide a certificate of currency of our policy.
- b) We have Workers Compensation Insurance and can provide a Certificate of Currency of our policy.
